

LOADABLE DIMENSIONS GUIDE (Imperial)

DOMESTIC TRAILER	Maximum Allowable Dimensions (in.)			Max. Allowable WEIGHT * (lbs.)			Pallets	
	Length	Width	Height	US	CN	MX	Single Stack	Double Stack
(Palletized loads)								
53FT STD DRY	630	99	108	44,000	46,000	57,320	30	60
53FT RAIL DRY	625	96	104	42,500	42,500	N/A	30	60
53FT REEFER	610	95	96	40,000	40,000	54,000		
Mexico Only								
48FT STD DRY	568	99	104			55,115	28	56
48FT REEFER	550	95	96			40,000		

* PLLT Weight should be factored into the maximum truckload weight. Maximum weights vary by region.

All shipments from US points need to follow the US weight restrictions.

Vendor is responsible to ensure the order is properly packed and loaded to prevent any transit damage and tampering.

OCEAN CONTAINER	Maximum Allowable Dimensions (in.)			Max. Allowable WEIGHT ** (lbs.)			Actual Dimensions (in.)
	Length	Width	Height	US	CN	MX	
(Unitized w/o pallets)							
20FT STD. DRY	228	90	92	36,000	46,000	47,339	232 x 92 x 93
40FT STD. DRY	470	90	92	42,500	46,000	47,339	474 x 92 x 94
40FT HC DRY	470	90	104	42,500	46,000	47,339	474 x 92 x 106
45FT HC DRY	530	90	104	42,500	46,000	47,339	534 x 92 x 106
40FT HC REEFER	452	88	96	41,400	46,000	47,339	456 x 90 x 100
40FT HC R SPECIAL FOR DRY ONLY	452	88	98	41,400			

** Shipments to Morris IL (Depot 267): 20FT - 34,000; 40FT - 41,000; 40HC - 41,000; 45HC - 41,000.

Vendor is responsible to ensure the order is properly packed and loaded to prevent any transit damage and tampering.

Cargo weight must be distributed evenly in container. Airbags are the preferred dunnage to prevent load shift.

Maximum clamping capability is 78" and 2500 lbs. Minimum clamping capability is 21".

CONTACTS

US STANDARD ROUTING / LOGISTICS INSTRUCTIONS

Collect – Inbound to Costco Wholesale (Costco selects carrier and pays freight)

This will serve as routing/logistics instructions when shipping your product to Costco Wholesale. These terms and conditions cannot be altered, changed, or deviated from without written consent from Costco. Deviations without prior approval from the Buyer, Traffic Department, or other authorized person will result in the issuance of chargeback's, which will be deducted from your invoice.

Routing will appear on Costco purchase orders in two ways:

Routing Instructions - specifying a carrier will appear on some purchase orders.

OR

Call Traffic – The appropriate regional Traffic Department must be contacted (e-mail if possible) to determine routing (see Costco Regional Traffic / Logistics phone and fax list).

Routing requests from the vendor to Costco Traffic should include:

- Complete shipping facility name and address
- PO Number
- Type of load (pallet, slip, floor)
- If palletized or slip-sheeted and whether or not product will double stack
- Pieces, weight, and cube of the product (excluding pallet) and total weight and cube of entire shipment (including pallet weight and cube).
- Date the merchandise will be ready for pick up

Routing for Collect shipments requiring any “special handling” such as high cube, heavy haul, refrigerated, Keep-from-Freezing, Keep-from-Melting, ventilated trailers etc. should be verified with the Traffic Department regardless of the routing noted.

All Costco Wholesale orders are considered “Shipper load and Count”

The Vendor is responsible to ensure the order is properly packed and loaded to prevent any transit damage and tampering. If blocking and bracing is required – this is to be done by the vendor or at the vendor's expense. It is also the responsibility of the vendor to ensure and accurate piece count of the load and the piece count must to be clearly stated on the Bill of Lading. On shipments where vendors require driver count, vendor will be charged for associated costs. Please refer to the Costco Standard Terms Agreement (Page 1, Merchandise and Pallets #1, sec A; #7 Delivery).

All Costco Collect Shipments Require 2 Hours Free Time at Loading

Any detention charges incurred after the 2-hour free time will result in the issuance of chargeback's, which will be deducted from your invoice. Costco Fleet pick ups must load in one hour or may be rescheduled for another time.

Less-than-Truck-Load (LTL)

FedEx Freight Economy is Costco's preferred LTL carrier for LTL shipments.

Vendor/shipper, please contact **FedEx Freight Economy** at (866) 393-4585 to arrange for pick-up. **FedEx Freight Economy** must be clearly written on the BOL or shipper risks being charged back for additional freight costs associated with shipping via incorrect service levels.

LTL shipments weighing 10,000 pounds or more, or taking up more than 12 pallet floor spaces "turned" in a trailer (if no overhang on pallet), must have routing verified by the Traffic Department regardless of the routing noted on the purchase order.

Small package purchase orders

For shipments weighing up to 150 pounds – use UPS Ground (unless product exceeds limitations of UPS Ground). Do not use UPS Freight for Costco LTL shipments (See above)

COLLECT OR PREPAID SHIPMENTS

Shipping / Arrival Dates

- Collect shipments – Requested ship dates must be met
- Prepaid shipments – Requested arrival dates must be met
- The buyer and/or the traffic department should be advised of any deviations.
- The vendor will be charged any additional freight charges incurred as a result of not adhering to the shipping/arrival dates.

Back Orders / Split Shipments

- A Costco buyer, prior to shipping, must authorize any back order or split shipments.
- Any back order or split shipments resulting in additional freight charges will be charged to the vendor.

Over Shipments, Unauthorized Substitutions, or Defective Goods

- Shipments will be returned at the vendor's expense.
- The vendor will be charged inbound and return freight charges and be subject to a handling fee.

Air Shipments (Collect only)

- All collect air shipments must be authorized and arranged through the Costco Traffic Department.
- Any unauthorized shipments will be charged back to the vendor along with any handling cost.

Prepaid Shipment – Inbound to Costco Wholesale (Vendor selects carrier and pays freight)

The Vendor is responsible for arranging transportation and all other logistics in shipping the product from shipping origin to Costco.

Please refer to Costco Corporate Packaging Guidelines for complete packaging and pallet requirements

Loading

- All load capacities should be based on maximum utilization of trailer space.
- Loads on pallets need to be turned in the trailer to maximize space. (Exceptions: Produce or Refrigerated loads should be pin-wheeled to maximize airflow and stability.)
- A vendor not utilizing maximum space available may be subject to any additional freight charges incurred.
- A Costco buyer, prior to shipping, must authorize any non-palletized shipments.
- Vendor is responsible to inspect all merchandise prior to shipment to ensure quality, safety, and conformity. Vendor must ensure that the merchandise is properly packed and loaded to prevent transit damage and tampering. Vendor should utilize airbags or Styrofoam blocks to prevent load shift. Any refusals or issues resulting from failure to do the above will result in a charge back to the vendor for all associated costs to rework, deliver, or return the merchandise.

**Collect or Prepaid
Bill of Lading**

Information Required:

- Costco's purchase order number
- Description of product
 - Costco's item number(s), as well as description(s) of product must appear together.
 - Actual scale weights
 - Complete origin address and destination address
- Zip Codes

Accurate zip codes for both origin and destination must appear on the Bill of Lading.

- Multiple Purchase Orders

All packages consigned to the same location should be consolidated on one bill. (**LTL shipments** if your shipment exceeds 10,000 lbs or more than 12 pallet spaces you must contact the Costco Traffic Department for approval to book LTL prior to shipping.)

Delivery Appointments

All Costco locations require that delivery appointments be secured at least two business days prior to planned delivery.

Delivery to Costco Warehouses

All Costco Merchandise should be shipped on pallets. A Costco buyer must authorize all non-palletized shipments

Delivery to Costco Warehouses

Costco Depots must be informed of the correct type of delivery appointments at the time of the carrier's appointment request. Incorrect appointment types will result in load refusals.

Correct Appointment types:

- Pallet Appointments Entire load must be palletized
- Floor Load Load is entirely loose cartons or is a mixed configuration of Pallet/Slip sheet

Trailer types that cannot be received at Costco Depots:

- Any trailer not dock height – Trailers must align with depot dock plate.
- Lift Gate - All trailers with a lift gate will be refused

- Retail branded Trailers - Trailers with any other retailers logo/brand
- Soft Sided/Curtain Trailers
- Moving Vans
- Trailers with interior shelving
- Trailers with rollers in the floor (air freight trailers)
- Flatbed Trailers

Please Note:

Shipments received on pallets not meeting Costco Specifications will be refused.

Vendors shipping on bad pallets are subject to charges for labor and materials to re-palletize/rework/redeliver load.

- A Costco buyer must authorize all non-palletized shipments. Vendors shipping on slip-sheets, unitized, or floor load must have authorization from the buyer prior to shipping.

Efficient Handling

Optimum pallet handling is a “NO TOUCH” pallet, delivered to our door, meeting the following conditions:

- **Quality Pallet** - pallets that meet our criteria (preferred 4 way entry/block style)
 - Please refer to Costco Corporate Packaging Guidelines for complete pallet requirements.
- **Stretch wrapped and/or tied to prevent movement.**
 - Extend shrink wrap
 - A minimum .79 gauge stretch film, wrapped three times, or the equivalent in performance.
- **No overhang or under hang of product on pallet.**
- **Tie/High that maximizes pallet capacity.**
- **Optimizes cube**

- Dry Loads: As close to but not more than 52” high, including pallet height*
- Refrigerated Loads: As close to but not more than 48” high, including pallet height*
- **Allows double stacking**
 - Support Posts
 - Top Cap
- **Full/Flat layer**
 - Chimney tops
 - Distribution quantities adjusted to flat layers for Depot shipping.

***Any exceptions to these standards must be pre-authorized
by the Costco buyer and/or Traffic BEFORE shipping**

Vendor Freight Chargeback's

The following circumstances require that a freight chargeback to the vendor be initiated. Please note the justification for these chargeback's as outlined in our Costco Wholesale Standard Terms Agreement or other authorization as noted below.

Origin Detention – Loading appointments along with in and out time stamps are highly recommended. Detention starts once the two-hour free time has expired. Costco pays carrier detention invoices when the carrier can provide supporting documentation. A claim can only be filed when written proof is provided that the detention charges are incorrect.

Reworks, Overages - Please refer to Costco Wholesale's Standard Terms in Section 12.

REJECTION/MERCHANDISE RETURN

Short Received – PO's that are received short will have the freight charges associated with the missing merchandise charged back to the vendor.

Merchandise refusals, Load shift in transit – Please refer to Costco Wholesale's Standard Terms in Section 1.

MERCHANDISE AND PALLETS

TONU (Truck order not used), Layover – Based on documentation received from the freight carrier, vendor will be subject to charges associated with a vehicle ordered not used or layover charges when merchandise is not ready to ship on requested ship day.
